

Wait/Enter Indicator

P/No. A4177

The LED over door indicator lamps fits the standard UK single gang socket box, or can be supplied with a matching 10mm surface mounting back box. To harmonise with the décor the lens is a translucent white that changes to red or green when activated by the desk top controller. Voltage range 12 – 24Vdc

Size 86 x 86 x 60mm

Wait/enter systems can be supplied as a stand alone system (Single room) using a desk top controller, or part of a multi-room system or linked to a PC as part of an IT system.

Desk Top/Wall Mounted Controller Operation

Where the system is to be controlled manually a wall unit to fit the standard UK single gang socket box can be supplied; or a desk top unit can be supplied with a patch lead to plug into a CAUK custom RJ45 socket. Pressing the 'ENTER' button turns the over door lamp to green 'ENTER' and pressing the 'WAIT' button switches on the red 'WAIT'. A reassurance lamp is lit in either button to indicate the state of the over door lamp.

Size 86 x 86 x 12mm - Wall version

Size 86 x 86 x 22mm - Desk top version

P/No. A4504

P/No. A4276

CAUK RJ45 Wall Socket

P/No. A5094

The RJ45 socket fits the standard UK single gang socket box. The label clearly describes its function. Size 86 x 86 x 10mm

12Vdc PSU (Plug Top)

P/No. A3684

For single room systems a small power supply will be needed.

12Vdc PSU (Inline)

P/No. A4293
